

Precision Energy and Technology has been working with fuel cell technology since 2005 and specializes in producing educational fuel cell kits.

10 Stack Fuel Cell 10 cm² \$595

Features:

- 10 Cell Stack*
- Strong heavy duty housing*
- 10 cm² Area Electrodes*
- Durable 316L bipolar plates*
- High quality MEA – Nafion 117 with 2 sided Platinum-alloy Electrodes*
- Barb fittings for easy gas connections*
- Banana plug electrical connections*

Based on the PET 10 cm² fuel cell, the 10 stack unit can be purchased as a single unit or built into the 10 cells by purchasing additional cells and adding them to your already existing 10 cm² fuel cell. This stack raises the power level of your fuel cell system allowing a greater diversity of fuel cell experiments. The stacks provide the student with power to seek out their own creativity for new applications in this exciting new field.
