

Precision Energy and Technology has been working with fuel cell technology since 2005 and specializes in producing educational fuel cell kits.

## Fuel Cell 100 cm<sup>2</sup> \$399

### Features:

- Strong heavy duty housing*
- 100 cm<sup>2</sup> Area Electrodes*
- Durable 316L bipolar plates*
- High quality MEA – Nafion 117 with 2 sided Platinum-alloy Electrodes*
- Barb fittings for easy gas connections*
- Banana Plug electrical connections*

The 100 cm<sup>2</sup> Fuel Cell is PET's next fuel cell in the developer's domain. This unit retains all of the great features found in the 10 cm<sup>2</sup> Educational Fuel Cell, but with significantly more reaction area. This unit will produce nearly 10 times the power of its smaller cousin. The 100 cm<sup>2</sup> Fuel Cell should provide developers, educators, and graduate students a means to utilize or demonstrate the useful power that fuel cell can generate.
